

# Jessica's Swimming Safety Tips

Hi everyone! Summer is back again, and we've got some great safety tips!

1. Always have an adult watch when you are going swimming, and you should always swim with a buddy.
2. If you aren't a strong swimmer, make sure you wear a life jacket.
3. Make sure life-saving equipment and a first aid kit are near just in case.
4. Make sure there are no toys, skateboards, or anything around the pool that could cause someone to trip and fall.
5. A phone should be close to the pool just in case you need to reach a parent. Emergency and parent's contact numbers should be listed beside it.
6. Play safe: don't run around the pool deck, throw objects or dunk others in the pool. Please be safe!
